

Pinwheels For Tobacco Prevention

PROUD TO BE #TOBACCOFREEME!

Who's ready to get crafty for a good cause? Make a pinwheel to share your reasons for living tobacco free. Display them at your school and bring them to Tobacco Free Day at the Capitol for a presentation that's sure to blow everyone away!

How it Works

1. First, you'll need a square piece of paper. Have an 8.5 x 11-inch sheet of paper? Just fold one corner to meet the opposite side – then, trim off the excess.
2. Working with your square, fold it in half diagonally one way and crease. Open the paper and repeat, folding the other way.
3. Next, grab your ruler and place it diagonally along one of your folds. Measure and mark 1" away from the center in both directions. Place your ruler diagonally along the other fold and repeat.

4. Now, decorate your paper and write your "whys" for being tobacco free on the wings – see above for where to write so your text will be visible once the pinwheel is assembled. *Be careful not to completely cover your 1-inch marks!*
5. When finished decorating, use your scissors to cut along the diagonal folds from each corner to the 1-inch mark.

6. Next, grab your hole punch and punch a hole in the center of the square. Then, punch holes in the four wing corners indicated above.

7. To assemble your pinwheel, carefully grab one wing corner and bend it up and over, matching up the wing hole with the center hole. Work your way around the square, repeating with each wing corner until all holes are lined up.
8. Then, put a push pin through all the holes and gently poke it into your pencil eraser to secure.

Show Off Your Pinwheels!

Whether it's around school or at the Capitol for Tobacco Free Day, get creative with the way you display your pinwheels. Decorate tin cans and use floral foam to make a pinwheel arrangement or try artfully hanging pinwheels from the ceiling.

Once everyone is finished, capture a slo-mo video of your Crew blowing their pinwheels and share it on social media with the hashtags **#TobaccoFreeMe** and **#RazeWV**.
