

2022 Time Capsules

Help us celebrate 20 years of tearing down Big Tobacco's toxic lies – and commemorate the accomplishments of your Crew! Create a time capsule filled with memories of your school year and bury it for the Crew in 2042 to open.

How It Works

1. Get Your Capsule

Pick up your custom Raze Time Capsule when you attend Tobacco-Free Day at the Capitol. Couldn't join us? Your Adult Advisor should receive one in the mail.

2. Write Your Memories

As a Crew, make a list of the things you did to help reach our goal of a tobacco-free West Virginia. This could be anything from attending a Raze training to posting tobacco truths on social media to hanging **#StopLiquidLies** posters around your school or community. Fold up the list and put it in the time capsule.

3. Make A Wish

Have each Crew member write down a wish for the 2042 Crew – something they hope will be true for them in 20 years. Fold these up and put them in the time capsule, too.

4. Personalize It

Include a picture of your Crew so they can see what hairstyles and fashion were like. You could add a list of the year's top songs or any notable events – even toss in some confetti or Raze swag.

5. Bury It

Find a place on school or community grounds where you can safely bury your time capsule – or put it on display in a locked trophy case with a sign "Do Not Open Until 2042"!

Community Crews:

Determine the best place to bury and/or display your time capsule.

What You'll Need

- Time capsule (provided by the American Lung Association)
- Paper and pens
- Any other items you'd like to preserve
